Dear Mr Cuschieri,

I am contacting you as main interface CCMC and ISO Secretariat being in charge of accessibility at CEN-CENELEC Management Centre.

For accessibility, we are aware that ISO/IEC JTC 1 SWG/1 - Accessibility – is working on a Call for Updates to the Inventory of Accessibility and Accessibility-related Standards and Specifications. I would like just to suggest to mention the recently [published EN 301 549 Accessibility requirements suitable for public procurement of ICT products and services in Europe](#) with supporting TRs.

For information, in May we started the work under [Mandate M/473 'Design for all'](#). The Standardization activity is performed by a CEN-CENELEC Joint Working Group, with ETSI in mode 4 cooperation. The aim is to develop a European Standard that address how to implement Design for All approach into the design, development and production process for manufactured goods and service provisions.

Best regards,  
Monica
